

*Spectacular  
Mountain Trekking*

*Following the hidden path  
of rural north Bali*

We invite you to explore a nearly untouched part of the island of the Gods. Enjoy breathtaking views and learn about the sustainable development of rural, poor villages in northern Bali.

**A unique experience that  
you will not forget!**

### **The Project**

High up in the mountain villages of Muntigunung on the slopes of holy Gunung Agung, we were touched by people that live a much less privileged life than most. We feel fortunate to have found a way to support poor local families generate income by taking visitors on this beautiful trek.

***Water is the 'Blue Gold of the Future' and not without reasons. Access to drinking water is the foundation of a healthy life.***

Yayasan Masa Depan Untuk Anak Anak is a Swiss-Indonesian non-profit organisation. It helps the people of Muntigunung to improve their living conditions long-term, by providing water catchment systems and enabling them to generate sustainable income.

With your participation you directly support this project while enjoying some of Bali's most spectacular views.

### ***The Trekking***

We have chosen a moderate route which begins at the lakeside village of Songan. From here we trek through wild vegetation to the villages nestled along the hillside, just a short climb to the top then down to the dry coastline of northern Bali.

Accompanied by an experienced local guide and villagers, you will enjoy a part of this island that most Balinese don't even know about. Learn about the diverse climate and vegetation while enjoying the quietness of the remote area and rare views of Lake Batur and the Indian Ocean.

Around lunchtime, relax near the beach and enjoy a delicious meal before heading back to your villa or hotel.
